

Medical Chronology Sample

CASE NAME: Smith v. General Hospital

DATE OF INCIDENT: 01/15/2026

CHRONOLOGICAL SUMMARY:

01/15/2026 - Initial Admission: Patient presented with severe abdominal pain.

01/16/2026 - Surgery: Appendectomy performed by Dr. Jones.

01/18/2026 - Post-Op: Patient reported fever and increased pain.

01/20/2026 - Discharge: Patient sent home with antibiotics.

01/25/2026 - Readmission: Patient returned with sepsis.

KEY FINDINGS:

- Potential delay in diagnosing post-operative infection.
- Nursing notes indicate patient complained of fever 12 hours before labs were ordered.
